DETAILED ACTION

Introduction

1. Applicants' amendments and remarks filed on 9/30/2010 have been entered. Claim 1 has been amended. Claims 1-11 are active.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. In response to the amendments/arguments, the prior grounds of rejection have been withdrawn.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

More particularly, newly added limitation "compound (B) having a number average molecular weight of 500-100" appears to be new matter, because the recited range is unsupported by the original specification.

Response to Arguments

5. In response to the arguments, the prior grounds of rejections have been withdrawn. Applicants' arguments are moot.
